

**Killarney Regional Learning Centre,
Park Court,
Beech Road.**

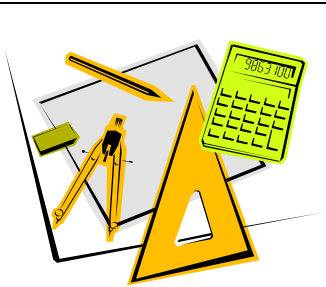

Energy Technology Workshop on Thursday April 22nd 2010.

Renewable Energy and Energy Management

Do you want to understand more about the importance of sustainable living for society and expand your knowledge on the different courses available in renewable energy technologies?

Guest Speaker: Patrick Carney, Lecturer, Institute of Technology, Tralee.

Maths

Do you want to see a practical example of how an engineer uses maths to make decisions or determine what level of maths is needed for different engineering courses?

Guest Speaker: Joan Cleary, Lecturer, Institute of Technology, Tralee.

Enterprise

Do you want to hear an industry expert talk about the area of Energy Technology?

Guest Speaker: Michael Hayes, Managing Director, RVR Energy Technology Ltd.

The workshop will give an overview of Energy Technology, the options available for further study/employment in this area and an overview of the supports available.

The workshop will commence at 2:00pm on April 22nd 2010 and is offered free of charge.

Places are limited. Pre-registration is required by contacting the centre.
