

BACHELOR OF TECHNOLOGY

Developed online by the Marine Institute Memorial University Newfoundland

Course Objective

The aim of this course is to prepare graduates for a career advancement in the health, science, technology or engineering technology industries. The course focuses on the business and technology management skills required to advance career opportunities. The combined diploma and degree will provide the student with strong technical training meeting national accreditation standards together with basic technology management skills to move ahead in their career. Participants will learn from the best in areas such as technology assessment, project management and quality management.

Entry Requirements

Graduates of technology programmes (e.g. Science, Computing, Engineering) accredited at Level 7 (Ordinary Degree, National Diploma) on the Irish National Qualifications Framework are eligible for entry to the Bachelor of Technology. IT, Tralee is working with the Marine Institute to offer its Bachelor of Technology as part of a collaborative arrangement with the Memorial University Newfoundland. Graduates of the Bachelor of Technology can progress to specific IT, Tralee Masters Programmes as follows:
