

# CERTIFICATE IN WEB DEVELOPMENT

– MINOR AWARD NEW 2008

## Course Objective

This course is designed to equip students with skills in developing web enabled business applications. This course is relevant to those wishing to develop skills to enable them support the back-end operation of a firm's web applications. It provides students with practical hands-on skills in the use and design of database systems, enabling them to support a website's back-end database activity. Experience of using and building databases, which are linked to web applications is provided.

## Course Content

- Introduction to Application Development
- Web Applications 1

- Introduction to Databases
- Web Applications 2
